ROOSEVELT AWAITS JAPAN'S RESPONSE

Doubt Is Expressed If Russian Note Suits Japanese.

NEGOTIATIONS MAY TERMINATE

Japanese Will Demand that a Sincere Effort to Reach a Permanent Peace Agreement Be Made—Other News Regarding Far Eastern Situation.

Washington, June 15.—Russian formal response to President Roosevelt's appeal to the Far Eastern belligerents for a cessation of hostilities has been communicated to the Tokio government by the President. The note written by Count Lamsdorff, by direction of Emperor Nicholas, and handed by the minister of foreign affairs to Ambassador Meyer at St. Petersburg, was placed, in turn, in the hands of Minister Takahira by the president and transmitted by M. Takahira to Tokio. The president is in hourly expectation that a response may be received from the Japanese government.

Doubt is expressed in important quarters whether the Russian response is satisfactory to Japan. The government of the island empire is wary of its big European antagonist and has indicated its intention of not sacrificing its dearly bought victories at arms in the conflict of diplomacy, which now is being waged. Minister Takahira is inclined to look askance at that part of the Russian note which reads: "As for an eventual meeting, how far it would be possible for the two powers to elaborate conditions of peace, the imperial government would have no objection in principle to such an attempt if the Japanese government expressed a desire therefor."

Japan has indicated plainly that if there is a conference between its plenipotentiaries and those of Russia, it must be held with a definite understanding that a sincere effort to reach a permanent peace agreement is to be made.

Newspapers Discuss Situation.

St. Petersburg, June 15.—With the publication of the government's position on the peace negotiations the newspapers are filled with a discussion of the situation. The Russ, which most nearly reflects the views of the foreign office, points out clearly that in consenting to President Roosevelt's appeal for a conference of plenipotentiaries of the two powers, Russia in no wise engaged herself to conclude peace except on the condition that the Japanese terms when ascertained prove an acceptable basis. If they are not entertainable, Russia will withdraw.

The Novoe Vremya declares that inasmuch as Japan ruptured diplomatic negotiations before the war it is proper that she should now define the objects for which she drew the sword. The success Japan obtained in passing anything she could have anticipated in war. She is now mistress of the seas and will remain so for many years, but if her appetite has increased inordinately she should remember that Russia's means are not exhausted.

Consider Peace Very Remote.

Pekin, June 15.—In German and other circles here the prospects of peace between Japan and Russia are considered remote. It is supposed that Japan intends to inflict a final and crushing blow upon the Russian army in Manchuria before considering any action for peace.

Japan Opposed to Paris.

June 14.—3 p. m.—The report of the Japanese minister at Washington, Takahira, telling of his interview with President Roosevelt and the proposal that the peace conference be held at Paris, and the appointment of the Russian ambassador, Giers, as the Russian plenipotentiary, received today. Japan will

refused to have the meeting take place in Paris because it is the capital of Russia's ally and also on account of the great distance from Japan and the delay involved.

It is expected that Japan will propose that the plenipotentiaries meet at some point close to the theater of war. The Japanese plenipotentiary has not yet been selected.

Will Open Oriental Ports.

New York, June 15.—In a speech before the Business Science club, Japanese consul Urhida, while refraining from any prophecy as to the probable terms of the peace agreement to which this country might be willing to subscribe, said he could guarantee one thing welcome to Americans: "I can say to the American world of commerce," he declared, "without a fear of making a mistake, that when peace is finally achieved the markets of Manchuria and Korea will be open to the world and that our sincere hope in Japan is that America will join hands with us in the development of the two countries."

NEWS FROM THE FAR EAST.

Russian Cruiser Sinks British Vessel. Other War News.

Singapore, Straits Settlements, June 15.—The few details obtainable regarding the sinking of the British steamer St. Kilda by the Russian auxiliary cruiser Dnieper show that the St. Kilda was captured by the Dnieper on June 4, about 50 miles from Hong Kong at which ports he was last reported.

She was sunk by a cruiser on the following day on the ground that she had contraband of war on board, after the crew and mails had been removed. The cargo of the St. Kilda consisted chiefly of jute, rice and cotton.

The Dnieper transferred to the Dutch steamer Flores in the straits of Malacca, 41 of the Chinese crew of the St. Kilda and the mails belonging to that steamer, but the captain, ten Europeans and the Chinese stevedores who had charge of the Chinese portion of the crew of the St. Kilda, were detained on board the Dnieper.

News from Battlefield.

Gunshu Pass, Manchuria, June 15.—The Japanese have forced the advance posts of the Russian left beyond the Kaouchou river and are occupying the heights north of the river. A heavy force seems to be behind this movement. Field Marshal Oyama is ready for a general offensive. The two leaders of Chinese bandits captured at Omoso in the rear of the Russian left have arrived here.

Hospital Ship Released.

Nagasaki, June 14.—Noon.—The Russian hospital ship Kostroma, which was captured during the battle of the sea of Japan, was released today and she sailed for Shanghai. The hospital ship Orel which was captured at the same time, will be taken before the naval prize court at Sasebo for trial.

Nothing Daunted This Swain.

Ottumwa, Iowa, June 15.—The railroad tied up by washouts, Elmer C. Coombs drover, swam, walked and jumped a handcar on a railroad track 55 miles from Exline to this city to reach here in time to be married to Miss Myra Moon. Coombs tried to charter a train, but was refused. He drove until the roads became impassable, then walked 10 miles, swimming where the bridges were washed away. With the aid of the handcar for the last part of the trip he reached here and was married at 12:30 in the morning.

May Emigrate to South America.

New York, June 15.—The colonization office has reported, says a Herald dispatch from Montevideo, with reference to the note sent recently by the Uruguayan legation at Washington, announcing that many farmers from Missouri and Colorado have resolved to emigrate to Uruguay and requested information about the fiscal lands. The report says it is necessary to ascertain the probable number of emigrants, their financial condition and other details before the government can give an opinion.

VETERANS GIVEN ROYAL WELCOME

Louisville Receives Them With Outstretched Arms.

CITY IS DRESSED IN GAY ATTIRE

Governor Beckham, of Kentucky, Welcomes Them to State—Many Prominent Confederates Occupy Seats on Platform When Order Is Called.

Louisville, June 15.—After a night and morning of arriving trains and streets filled with bands of marching men and with music and flags everywhere, the city of Louisville today welcomed the thousands who have come "to the farthest north" to attend the fifteenth annual convention of the United Confederate association.

The crowd exceeds expectations, and with assurances of glorious weather, the reunion already promises to be a success.

The preparations for the accommodation of the old soldiers have been made on a lavish scale. At several points in the city barracks have been furnished and a few steps away from each is the free restaurant which 24 hours out of the day serves meals to the wearers of the gray.

For the accommodation of the press in the way of working headquarters, a church in the center of the city, capable of seating 2,000 people, has been fitted up with tables, chairs and typewriters. All courts have adjourned for the remainder of the week in order that the court rooms may be used as headquarters for the various state delegations.

The hotels and boarding houses are crowded and arrivals continue.

The business side of the reunion, the annual convention, was scheduled to open in the Horse Show building at noon, and it was only 20 minutes after that hour when Colonel Bennett H. Young, of Louisville, commanding the Kentucky division, called the vast assemblage of veterans and their guests to order.

Among those on the stage were Lieutenant General Irvine Walker, commander, army of the Northern Virginia department; Lieutenant General W. O. Bell, of Texas, commanding the Trans-Mississippi department; General Clement A. Evans, army of Tennessee department; Rev. J. William Jones, of Richmond, Va., chaplain general; Governor J. C. W. Beckham, of Kentucky; Mayor Charles E. Grainger, of Louisville; General Julius S. Carr, commanding the Tennessee division; General George P. Harrison, of Opelika, commanding the Alabama division and numerous brigade commanders.

The invocation was by Chaplain General J. William Jones. The chaplain asked that the blessing of Almighty God descend upon the president of these United States; that he might be the president of this whole country and of every section. After Mr. Richards had welcomed the veterans to Louisville, Governor Beckham extended the hospitality of the state.

Sons of Veterans Meet.

Louisville, Ky., June 15.—The United Sons of Confederate Veterans met today in Hopkins theater, the opening session being delayed until nearly 11 o'clock by late arrivals. The attendance was not large. The convention was called to order by Marion W. Rippy, lieutenant commander of the local camp of Sons of Veterans, in the absence of John C. Davidson, the commandant. After the invocation Colonel R. W. Bingham, of Louisville, welcomed the delegates to Louisville and Kentucky. The response was by Hon. T. P. Stone, of Waco, Tex., a past commander in chief. Colonel N. E. Tisdale, of Rusk, Tex. then addressed the convention.

After the transaction of some further routine business, the convention adjourned the delegates marching in a body to the horse show building, where the session is being held.

Dead, He Sat Holding the Reins.

Selinsgrove, Pa., June 15.—While

Albert Arbogast, of Selinsgrove, a prominent dealer in farming implements, was driving near McKee's Half Falls, he was suddenly stricken with apoplexy in his buggy. The horse trotted on at the usual gait and stopped at Rhine's store. When Mr. Rhine came out to wait on his supposed customer, he found a dead man sitting in the buggy, with the lines wrapped about his hands.

KING REPLIES TO STORTHING.

Norwegians Claim, However, that the Union Is Forever Dissolved.

Christiania, Norway, June 15.—King Oscar's long letter to the president of the Norwegian storthing, M. Berner, defining his position as cabled to the Associated Press yesterday evening was read in the storthing today.

The document was referred unanimously to a special committee without consent and the storthing adjourned to await the committee's report. There was no demonstration. The Associated Press understands that a short reply will be sent reaffirming the constitutional rights of the storthing.

The government of Norway and the members of the storthing welcomed message seeing in the last paragraph, an indication that the king and the riksdag will probably confirm the dissolution of the union after a reaffirmation of the contention that the union would not be dissolved without the consent of Sweden and King Oscar.

A member of the storthing commenting on the bitter feeling in Sweden said to the correspondent of the Associated Press:

"Aristocratic Sweden is always inclined to look down on Democratic Norway. The Swedes resent what they consider our audacity in initiating a solution and dethroning the king. The latter has always been influenced by the atmosphere of the nobility of Sweden and seldom visited Norway. The Swedish upper chamber, too, is inclined to consider the rights of the throne paramount to those of the constitution, which, however, is not the case in Norway."

AGITATING PROPOSED BOYCOTT.

American Minister Assures China of Our Friendly Feeling.

Pekin, June 15.—The agitation and proposed boycott of American goods by the Chinese merchants is apparently based upon a misconception by the Chinese of Americans' intention in regard to the Exclusion Act. Both Chinese and Americans are agreed upon this point that exclusion of coolies is the chief matter under consideration and that the act deals with the treatment of other classes. A discussion of the subject will be necessarily prolonged and to arrange a new convention, will take time.

Mr. Rockhill, the American minister has assured the Chinese that America's intentions are friendly and conciliatory and the Chinese board of foreign affairs is apparently satisfied upon the subject. The public are somewhat alarmed, hence the boycott.

This movement is unlikely to attain any serious proportions, although it is significant, indicating the importance which is attached by the Chinese to questions involved in the American exclusion act. The exclusion of coolies, from the Hawaiian and Philippine Islands is considered a hardship by the Chinese, who also complain of the treatment they experience at the hands of the American custom officials nevertheless there is a desire on the part of the Chinese government for a speedy and amicable adjustment of the questions at issue.

Killed Himself and Five Children.

Tucuman, Neb., June 15.—Mrs. Geo. Campbell, wife of a ranchman living four miles west of here, went suddenly insane today and with a rifle chased her husband from home. Then before he could return with help, she killed her five children and ended her own life by shooting.

Gets Fortune for Changing Name.

Redding, June 15.—Byron Bigler, a lad of 15, living in Copper City, has left for Nebraska to take possession of a legacy of \$250,000 left by his adopted father. Young Bigler falls heir because he took his adopted father's name.

TERRIBLE TRAGEDY IN SOUTH GEORGIA

Young Man and Sister Assassinated In Their Yard.

SHOTS ARE FIRED FROM AMBUSH

Killing Is the Sequel to a Feud of Long Standing—Perpetrators of Crime Unknown, But Believed To Be Negroes. Little Child Is Wounded.

Valdosta, Ga., June 15.—As a sequel to a feud of long standing, the 17-year-old son and the 16-year-old daughter of W. L. Carter, former Methodist preacher, were assassinated in their yard in Hahira district last night at 9 o'clock.

The dog began to bark in the yard and the young people, with the younger child, went out to see what was the matter. While looking for the cause of disturbance, they were fired upon by someone from behind the smokehouse.

The young lady fell dead in her tracks, the young man, wounded, crawled back into the house and died, while the third child was wounded.

The father was fired upon several weeks ago by J. G. Rawlings, who is also a former minister. He is now under charge of assault with intent to murder.

Only last Saturday Rawlings was placed under a bond of \$1,200 to keep the peace.

He spent last night in this city, so it will be easy for him to prove that he did not do the shooting. Carter also had his throat cut in a court room quarrel several months ago.

The feud between him and some of his neighbors has been bitter for several years.

This morning about 3 o'clock he fired upon someone who was loitering about his house, and he says it was a negro. He believed that the assassins were negroes, but that someone else is the instigator.

CREDIT MEN IN SESSION.

National Association Holding Tenth Annual Convention.

Memphis, Tenn., June 15.—More than 200 delegates were present when the tenth annual convention of the National Association of Credit Men was called to order this morning by President Frederick W. Standart, of Denver, Colo.

The meetings will continue until Friday afternoon when officers will be elected and final adjournment will be taken. Delegates from Los Angeles, Cal., are on the ground and are making a strong bid for the next convention.

The report of the legislative committee which will probably be read on Friday is looked forward to with much interest as it is believed several important resolutions will be offered for adoption.

The delegates were welcomed this morning by Mayor J. J. Williams, for the city and Governor John I. Cox, on behalf of the state.

The welcoming addresses were responded to by J. Harry Tregoe, of Baltimore, former president of the association.

Noted Arab Chief Dead.

New York, June 15.—A dispatch from Zanzibar announces the death of Tippoo Tib, the noted Arab chief and slave dealer. When travelling through the Dark Continent in 1876, Henry M. Stanley met Tib and described him as a most remarkable character. He later established the chief as governor of the Stanley Falls Station, on the Upper Congo.

Fatal Duel Over Girl.

Magie Pass, Tex., June 15.—A bloody duel occurred at Pecos on the Mexican International railway. Two men of the same name, Corrales, but not related, were lovers of the same girl in the village. Finally resolving to settle the matter with pistols, they went into the woods and, after exchanging four shots, both fell dead, each with a ball through his heart.

Single Pass, Tex., June 15.—A bloody duel occurred at Presidio on the Mexican International railway. Two men of the same name, Corrales, but not related, were lovers of the same girl in the village. Finally resolving to settle the matter with pistols, they went into the woods and, after exchanging four shots, both fell dead, each with a ball through his heart.

ENGINEER HALL WAS DESPONDENT

Took His Own Life, Because the
One He Loved Had Died.

THE DEED WAS DELIBERATE

Wrote a Note Instructing Disposition
of Remains, Enclosed Check to
Cover Expenses of Funeral, Then
Drank Carbollic Acid—Shot Himself.

Despondent and grieving over the
death of his devoted wife a year ago,
alone in the world with the exception
of a sweet, innocent little daughter of
four years who is absent from his side,
Engineer J. O. Hall of Waldo took his
own life Thursday morning, and an
empty vial labelled carbollic acid in
one hand and a pistol in the other told
the sad story.

Mr. Hall had been a resident of
Waldo for the past twelve or fourteen
years. He was an engineer in the em-
ploy of the Seaboard Air Line Rail-
road, and up to the time of the death
of his wife a year ago, no home was
happier than his, with the devoted
wife at his side and a sweet child at
his knee.

But the demise of this dear woman
who had made life a pleasure for
him, caused him to be despondent, and
ever since he laid her to rest he has
been indifferent as to the world and
his friends, notwithstanding they did
everything possible to cheer and com-
fort him. A few months ago his child
was given to the care of a sister, and
he was left entirely alone, with the
result that he became tired of life and
decided to end his earthly existence.

There was no man in Waldo individ-
ually more widely known or more popu-
lar, more generous-hearted or more
sympathizing than Mr. Hall, and he
was universally esteemed. He was a
prominent and active member of the
Waldo Lodge Knights of Pythias, and
stood well in the community, socially
and otherwise. His sudden death,
while to those most intimately ac-
quainted with him was no surprise, was
a blow to the people of that town.

As evidence that deceased went about
his task coolly and with determination,
he wrote a letter instructing the K. of
P. lodge as to the disposition of his re-
mains, requesting that they be sent to
South Dakota for interment. He was
in fair circumstances and enclosed in
the envelope with the letter a check
made payable to George P. Morris,
with the amount to be filled in, to cover
the necessary funeral expenses,
transportation, etc., and requested that
his remains be sent under escort of a
member of the Knights of Pythias to
their last resting place.

Robert McClellan was summoned
and went to Waldo Thursday night.
The body was embalmed and, accom-
panied by Mr. Morris, will leave Waldo
for South Dakota today.

Deceased was a native of Illinois,
but has been in Florida for many
years. He had no relatives in this
country, however, and all funeral ar-
rangements were made by friends and
brother Knights.

The sudden ending of Mr. Hall will
remove from Waldo one of the most
familiar faces of the town, and his
death will be generally regretted.

STRIKE IS A DEAD ISSUE.

Teamsters Not Defeated But Will Let
matters Adjust Themselves.

Chicago, June 15.—The Teamsters'
joint council apparently has come to
the conclusion that the strike is a
dead issue. For the first time since
the original strike against Montgom-
ery, Ward & company, was called the
council meeting was an "unimportant"
matter of business.

I don't see that the strike demands
much attention any more," said Wil-
liam Kelly, secretary of the Coal Team-
sters' union. "No, I won't admit that
we are beaten, but I mean to say that
we have matters in hand so well that
we can afford now to let the strike
take of itself."

The proposed referendum vote,
which certain labor leaders wish sub-
mitted to the teamsters as to whether
the strike shall be called off condi-
tionally, was not brought up.

President Bernard Mulligan, of the
railway express drivers' union said of
the referendum:

"It never will come up. Even if it
should, the teamsters on strike will
vote to a man for the continuation of
the strike until it can be called off
on honorable terms."

Prescott, Mich., June 15.—The latest
matrimonial event of interest to occur

has saved the bulk of her salary for
teaching the past 16 years.

Probing Cotton Leak Charge.

Wilson informed the president that he
was pressing his investigation of the
charges filed with him that a leak had
occurred in the cotton crop reports is-
sued by the agricultural department,

velop proof to sustain the charges.
The agent of the secret service and
others who are making the investiga-
tion have been instructed to leave
no stone unturned in their inquiry.

Breach of Discipline.

In February, 1748, Lord Robert Ber-
tie, third son of Robert, first duke of
Lancaster, afterward general in the ar-
my and colonel of the Second regiment
of foot guards, received a reprimand,
such reprimand being conveyed to him
by the Duke of Cumberland's aid-de-
camp. His military offense was that he
had blown his nose, as he relieved
guard, beneath his grace's window in
St. James palace; this, and this only,
was all he had done.—Chambers' Jour-
nal.

No Fire Within.

Times have changed. Our fathers
for some strange reason preferred a
cold meeting house to one which was
warmed by artificial heat. When a
stove was put into the Old South
church, Boston, in 1783, says J. H.
Crandon, a newspaper of contemporary
date contained this significant lament:

Extinct the sacred fire of love,
Our zeal grown cold and dead,
In the house of God we fixed a stove
To warm us in their stead.

Real Value of College Education.
We are apt to overestimate the value
of an education received from books
alone. A large part of the value of a
college education comes from the social
intercourse of the students, the re-en-
forcement, the buttressing of character,
by association. Their faculties are
sharpened and polished by the attri-
tion of mind with mind and the pitting
of brain against brain, which stimulates
ambition, brightens the ideals and open
up new hopes and possibilities. Book
knowledge is valuable, but the knowl-
edge which comes from mind inter-
course is invaluable.—O. S. Marden in
Success Magazine.

MEN DEAD.

Thursday Morning,
of Several Months.

Flewellen is no more.
Three months covering a period of
three months, during which he
sufferings with a commendable
patience, she end came at 2
o'clock Thursday morning, when he
was surrounded by his loved ones and
friends.

Deceased was born in Columbus, Ga.,
two years ago. When a lad he
removed with his parents to Barbour
county, Ala., where he grew to man-
hood. In November, 1889, he was mar-
ried in Eufaula, Ala., and twenty-
seven years ago moved to Florida,
since which time he has made this
State his home.

Mr. Flewellen served the Confed-
eracy as a soldier during the Civil
War, and was one of the most loyal to
the cause. When a member of the
Twelfth Alabama Infantry he was
wounded at the battle of Seven Pines.
After recovering he was attached to
the Waddell Artillery, with which
company he served during the remain-
der of the war.

Several months ago deceased was
afflicted with Bright's disease. About
three months ago he was compelled to
take to his bed, after which he was
never sufficiently well to regain activ-
ity. His condition at times has been
regarded as serious, when he would
rally and rapidly improve for several
days, only to sink again. On Monday
he was feeling unusually well and sat
on the veranda the most of the day,
but in the evening he was attacked by
a stroke of paralysis and gradually
sank until the end came to relieve him
of his sufferings.

Deceased was a member of the
Methodist church and the Knights of
Honor. His life has been one full of
charity and goodness, and his death
will be generally regretted. He is
survived by a wife, one son, John M.
Flewellen, and two sisters, Mrs. Mitch-
ell of Columbus, Ga., and Miss Mattie
Flewellen of Eufaula, Ala., all of
whom were at the bedside when the
end came.

The funeral will be held from the
Methodist church this morning at 9
o'clock, the interment being in Ever-
green cemetery. Rev. T. J. Nixon
will conduct the services. Friends of
the family are invited. The members
of Alachua Lodge, Knights of Honor,
will attend in a body.

The funeral arrangements are in
charge of Robt. McClellan. The pall
bearers are W. N. Wilson, J. H. Brin-
son, Truss Denby, James Doig, L. L.
Hill and J. R. Emerson. Mr. Mc-
Clellan requests these gentlemen to
assemble at the home of the deceased
at 8:45 o'clock this morning.

Attention, Knights of Honor.

All members of Alachua Lodge,
Knights of Honor, are requested to
gather at the residence of our late
brother, J. R. Flewellen, this morning
at 8:30 o'clock for the purpose of at-
tending the funeral. Services will be
held at the Methodist church.

L. J. BURKHIN, Dictator.

T. J. SWARINGEN, Acting Reporter.

Attention, U. D. C.

The members of Kirby Smith Chap-
ter, U. D. C., are requested to meet at
the home of the President this morn-
ing at half-past 8 o'clock for the pur-
pose of attending the funeral of the
late Mr. James R. Flewellen.

Stimulation Without Irritation.

In case of stomach and liver trouble
the proper treatment is to stimulate
these organs without irritating them.
Orino Laxative Fruit Syrup aids diges-
tion and stimulates the liver and bow-
els without irritating these organs like
pills or ordinary cathartics. It does
not nauseate or gripe and is mild and
pleasant to take. J. W. McCollum &

WOMEN'S NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia
E. Pinkham's Vegetable Compound.

How many women do you know who
are perfectly well and strong? We
hear every day the same story over and
over again. "I do not feel well; I am
so tired all the time!"

More than likely you speak the same
words yourself, and no doubt you feel
far from well. The cause may be easily
traced to some derangement of the fe-
male organs which manifests itself in
depression of spirits, reluctance to go
anywhere or do anything, backache,
bearing-down pains, flatulency, nerv-
ousness, sleeplessness, leucorrhoea.

These symptoms are but warnings
that there is danger ahead, and unless
heeded a life of suffering or a serious
operation is the inevitable result.

The never-failing remedy for all these
symptoms is Lydia E. Pinkham's Vege-
table Compound.

Miss Kate McDonald, of Woodbridge,
N. J., writes:

Dear Mrs. Pinkham:

"I think that a woman naturally dislikes to
make her troubles known to the public, but
restored health has meant so much to me that
I cannot help from telling mine for the sake
of other suffering women."

For a long time I suffered untold agony
with a uterine trouble and irregularities,
which made me a physical wreck, and no one
thought I would recover, but Lydia E. Pink-
ham's Vegetable Compound has entirely
cured me, and made me well and strong, and
I feel it my duty to tell other suffering women
what a splendid medicine it is."

If you are ill, don't hesitate to get a
bottle of Lydia E. Pinkham's Vegeta-
ble Compound at once, and write to
Mrs. Pinkham, Lynn, Mass., for special
advice—it is free and always helpful.

COMPLIMENT TO M'BEATH.

Pensacola Journal Suggests His Name
As Dean of New University.

When the new State University con-
templated by the Buckman bill is lo-
cated and the buildings are erected,
the work will then be only half-done.

There will yet remain to be provided
what is by far the more important
feature of the institution—an able and
adequate faculty.

Without going into detail or without
making any attempt at a canvas of the
whole field which the selection of a
good faculty will require on the part
of those who make the appointments,
The Journal wants to take time by the
forelock and suggest as one member of
that faculty—say as Dean of the Nor-
mal Department—the name of Tom F.
McBeath of the East Florida Semi-
nary.

Prof. McBeath is one of the most ac-
complished educators in the whole
South, and as a Floridian whose whole
interests are bound up in the State
and whose knowledge of her education-
al desires and needs is second to that
of no other citizen of the common-
wealth, he would make an ideal head
of any department to which he might
be assigned.

While the Board of Control is lo-
cating the University, let the people
take up the matter of "locating" a
suitable corps of instructors.

The Journal starts the matter by
suggesting the able and accomplished
Tom F. McBeath as Dean of the Nor-
mal Department of the new institu-
tion.—Pensacola Journal.

Marriage at Williston.

On the afternoon of Monday, the 12th
instant, at the home of the bride's
father, J. W. Mixson, Arthur Masters
of Ocala and Miss Pauline Mixson were
married. The affair was a quiet one,
only a few near relatives being pres-
ent. The ceremony was performed by
Rev. N. E. Norwood.

The groom is one of Ocala's most
prominent young men. The bride is
an accomplished young lady who is
well known and has many friends in
this city, where she has visited upon
numerous occasions.

The two with other friends extend
congratulations.

City Buys a Theater.

New York, June 15.—That municipal
ownership of theaters would prove a
costly experiment is indicated by the
city's first venture in that line when
it bought the Montauk theater, near
Flatbush avenue and Fulton street, in
Brooklyn, for an even half million.
This is \$200,000 more than the thea-
ter is assessed for on the tax books.
The theater property is bought to
make way for the extension of Flat-
bush avenue to the new Manhattan
Bridge. Two churches and many
other pieces of property are to be pur-
chased.

Big Flood in Paraguay.

New York, June 14.—The rivers Pa-
rana Paraguay and Salado have over-
flowed and are inundating an enor-
mous region, according to a Herald
dispatch from Buenos Ayres. Santa
Fe Rosario and other cities have suf-
fered heavily. At Santa Fe several
buildings collapsed. The cattle
drowned are estimated at more than
40,000 head. The railway in the north
province of Santa Fe has suspended
traffic. The government has sent as-
sistance.

Tom Watson's Son Marries.

Kingston, N. Y., June 15.—Miss Jes-
sie Doremus Milligan daughter of Mrs.
T. Scott Milligan, of Kingston, and
John Durham Watson, son of Thomas
E. Watson, candidate for president on
the People's Party ticket last fall,
were married here today. Owing to
severe illness, Thomas E. Watson was
not present.

New Southern Postmasters.

Washington, June 15.—Presidential
postmasters were appointed today as
follows: Georgia—Calhoun, Emma
B. Dyar. Maryland—Hyattsville, Geo.
Tise. Tennessee—Springfield, Francis
D. Robertson. Texas—Plano, Harry H.
Barkham.

Baptismal Water from Jordan.

McKeesport, Pa., June 15.—Twenty-
five infants were baptized in the First
Methodist Episcopal church by the pas-
tor, Rev. J. W. Miles, with water
from the River Jordan. The water
was furnished by W. L. Mussler, a
member of the church.

Russia now begins to see that it's one of two things: Peace or pieces.

The subway syndicate of New York expects to have \$100,000,000 capital, so it can buy up the aldermen and legislators and still have capital left to do business on.

Weather conditions throughout the cotton belt are reported generally favorable, although a considerable portion continues grassy. The boll weevil is quite active in Texas.

The unanimous expression of the people for Gainesville ought to give the State Board of Education no trouble in locating the University. Gainesville is the logical place for it. —Levy Times-Democrat.

And the Pennsylvania and Lake Shore railroads have begun a war on time in the run between New York and Chicago. The Lake Shore route run from Buffalo to Chicago at a 14-hour gait for the whole distance.

The Ocala Daily Star was ten years old on Wednesday, June 14th, the anniversary of Old Glory. The Star is one of Florida's leading daily papers, and The Sun wishes Brother Bittering many more years of prosperity.

The West Florida Fair, to be held at DeFuniak Springs next fall, will offer \$2,000 in premiums. The object is to hold a first-class agricultural fair, and not a hoochie koochie fake that will make you ashamed you ever attended.

The Tampa Herald is very observing, and in a recent issue called attention to the numerous editorial minds about the State running in the same channel. We have noticed the same thing of late, in regard to the location of the University, nearly all favoring Gainesville.

If Russia could have such a navy as has been doing service in the vicinity of Baltimore, Fort Monroe and other points the past few days, she would be in luck. Several warships have been sunk three times (constructively), and it looks as though the land forces would win.

The Jacksonville Metropolis very opportunely suggests that it is none too early to begin the crusade against the toy pistol, which will be here in a short time and have much to do in helping along the cases of lookjaw that may result from their use.

The farmers and truckers in this section who have done their work in a systematic manner, shipped first-class vegetables and put them up in nice packages, have made money this season. The trucker that sends out a package that don't have to be opened to find out the quality, will generally do well.

The next thing to occupy the minds of the men of finance is the amount of money that will be required to move the Western crops. United States Treasurer Roberts thinks it will require \$100,000,000. It takes about this amount every year and it will need \$24,000,000 in silver, leaving the balance to be made up of paper money.

CONFEDERATE REUNION.

The reunion of the Confederate veterans at Louisville, Ky., is one of the greatest gatherings of Southern men in years, upwards of 50,000 being in attendance. General Stephen D. Lee, commander-in-chief, delivered an able address to them. He spoke in part as follows:

"The welcome of the Kentuckian is like himself—large, wholesome, generous and free. He has a heart like his mighty Mammoth Cave. He takes everybody into it and looks around for more guests. We are lost in your hospitality, and will never find ourselves again until we get out of Kentucky."

"The last time we came to Louisville we were impressed that this was not a dry city, and although this time the rains have not descended or the floods fallen in the same way, we find the city is still wet in places with a certain ancient juice which is supposed to be good for veterans. Louisville has always been dear to the South. We have not forgotten the ministrations of her noble women in war times, when they were, indeed, angels of mercy. Nor have we forgotten the dreadful days when yellow fever stalked abroad in our land. The gates of this fearless and merciful city were never shut to the cries of distress. The Good Samaritans were not content until a hospital was built to shelter the stricken ones who fled to her doors from the scourge of the pestilence. We rejoice in the welcome you now give us; but we glory in the welcome which you gave unto the least of these your brethren."

"Kentucky is a name to charm with. It is a good land for horses and better for men and best for women. A Kentucky woman simply exhausts the subject. After you have seen her you wonder why there are any others. The only women who ever surpassed Kentucky women were their mothers—the immortal women of the Confederacy. The career of the Kentucky troops in the Confederate army is one of the finest things in the history of our race. Not only disowned by the nation, but exiled from their State, with nothing to lure them on but the high claim of principles for which their fathers had fought before them; with everything already lost that men count precious and a forlorn and swiftly falling hope before them, they battled to the end with a stubborn courage that never knew defeat. We were fighting for our homes and firesides; but these Kentuckians were fighting for us, because they loved our cause better than their own lives."

The speaker was repeatedly interrupted with cheers and the "rebel yell."

"How I pity the woman who goes through this life and no one to call her mother." The foregoing has been going the rounds of the press of the State, in some instances credited to "Ex." and in nearly every other paper it appears as original. How proud do you fellows think a self-respecting woman would feel to have a lot of pill-fellers call her "mother?" Of course there is no one to prosecute the case or every "mother's" son might be sent up for stealing; then wouldn't she be delighted to have such a bunch call her "mother." There are hundreds of women, through no fault of their own, who have no one to call them "mother." They feel as bad about it as the fellows who continue to clip the item and publish it. So if you have any respect for the female sex who are unfortunate, don't publish the item about "mother" more than biennially. It will do very well at the close of the session of the Legislature, when the members are thinking of home and "mother."

Oyama would like another round out of Linovitch before peace is declared. He thinks he has the old man in chancery.

POINTED PARAGRAPHS.

An old man doesn't care much for jokes.

What's the use of giving advice? People won't take it.

Not many men know if the advice their wives give is good or bad, as they seldom act upon it.

To every man: Know what puts that sad look on your wife's face? Every one suspects that it is you.

Every man who is nearing the end of his days must regret the worry he has given to false alarms all through life.

Do not go too much into details in your conversation. If you touch only the high places you can get over more ground.

When you inquire of a man, "How are you?" he will reply, "Oh" (with a long pause on the "oh"), "pretty well," indicating that he could be a whole lot better.—Atchison Globe.

A Painter's Broken Arm.

A friend once entered the studio of George Inness, the American landscape painter, while he was at work and remarked that the picture on the easel seemed to him much better than certain former works of the artist. "Right!" said Inness. "This is going to be one of my best things, and the reason is that I have had the good luck to break my right arm and am obliged to paint with my left hand. You see," he added, showing his right hand in a sling, "this hand had become so darned clever that I could not catch up with it, and it painted away without me, while this hand"—showing the left, with which he held his brush—"is awkward and can do nothing without me."

Poison in War.

When the French beat the Formosans along the coast in 1881 the latter retired to the interior. When the French pursued them they found a queer line of defense, beyond which they could make no progress and in storming which many died. The Formosans had poisoned the springs, water courses, etc., as they retreated, and the campaigns of the French against them never got farther than the poison line. The poison was a native one, as deadly as arsenic or strychnine.

PALMER FILES IMPORTANT PAPERS

In Case of Espanola Lumber Company Bankruptcy Case.

IN FAVOR OF THE CREDITORS

Against a Mortgage Held in Trust by H. F. Dutton & Co. for the Knickerbocker Trust Company—Interesting Case, Full of Complications.

Attorney W. H. Palmer, referee in bankruptcy, has prepared for filing with the United States Court, Southern District of Florida, the following paper in the matter of the Espanola Lumber Company of Prairie Creek, bankrupt:

"On July 6, 1904, the Espanola Lumber Company was duly adjudged a bankrupt and an order of referee was made therein.

"In pursuance of this order a meeting of the creditors was called and Perry M. Colson was chosen trustee. That under such appointment he proceeded to sell the assets of the bankrupt. That on the petition of creditors the referee ordered that the assets be sold free and clear of any and all liens, and that funds be deposited in the registry of the court subject to any priority.

"The property was sold at public auction on August 25th, 1904, and brought \$9,400.

"On November 19th, 1904, the Knickerbocker Trust Company of New York filed a petition showing, among other things, that on March 21st, 1904, the Espanola Lumber Company executed forty bonds of \$1,000 each, and on the same day executed a deed of trust, or first mortgage, on the entire property of said company to the Knickerbocker Trust Company as trustee, thereby securing payment of principal and interest of said bonds, and that said bonds and deed of trust or first mortgage were by request of petitioner turned over to the firm of H. F. Dutton & Co., Gainesville, and in said petition petitioner prays that Perry M. Colson, trustee, be ordered to show cause why the sum of \$8,856.56 of the said proceeds of the sale of the bankrupt estate should not be paid petitioner as trustee under said mortgage or deed of trust.

"That in obedience thereto, said trustee was duly summoned to appear and show cause why such fund should not be paid in said petition prayed.

"Whereupon, on the 3d day of April, 1905, the said trustee filed his answer in which, among other things, he denied that the lien of said mortgage or deed of trust attaches to the funds derived from the sale of the assets of the bankrupt, but on the contrary, alleges that the execution of said bonds and mortgage was a preferential transfer, upon the issue of this joined, on to-wit, the 22d day of May, 1905, after hearing the evidence and argument of counsel for and against the petition, it was ordered that the petition be dismissed."

Under the ruling of Referee Palmer in the premises, it will be seen that all creditors are protected against the mortgage held by the Knickerbocker Trust Company. Should the decision of the referee be reversed, however, the finding will be in favor of the mortgage, which is held by H. F. Dutton & Co.

The history of this case is as interesting as the affairs appear to be complicated. The plant of the Espanola Lumber Company, which is one of the most modern in this section, is located at Prairie Creek, near Rochelle. The original plant, which was owned by J. L. Kelley & Son, was destroyed by fire. The same was rebuilt by Dr. Kelley, who afterwards consolidated with J. B. McDonald. The property eventually passed into the hands of the Espanola Lumber Company, shortly after which the company was declared a bankrupt. At the bankrupt sale the property was purchased by Dr. E. S. Orill of Palatka, and is yet owned and operated by him, under the management of Dr. Kelley.

FOUR ARRESTED FOR MURDER.

Negro Confesses and Implicates Three White Men.

Forest City, Ark., June 15.—Four men have been arrested, charged with the murder of Walter Gray, a storekeeper on the St. Francis river, who last Tuesday night was killed in his bed and his body sunk in the river.

Gus Benton, clerk in the Gray store; Berry Minor, and Robert Martin, white, and a negro named John Davis are the prisoners charged with the crime. The three white men assert their innocence, but Davis, the negro, has confessed to his part in the murder and implicates the other alleged participants. Davis asserts that he stood watch outside while the others entered the store, killed Gray and later placed the body in a skiff and rowed out into the river. Davis says that he was given \$1 to stand guard. It is believed that Gray had \$600 in the store at the time of the murder.

CHASING NEGRO ASSAILANT.

Supposed to Have Attacked White Woman Near Savannah.

Savannah, Ga., June 15.—A posse with track hounds is in pursuit of a negro in Pipemaker's swamp, several miles from the city.

The negro is wanted for what is believed, to have been a criminal assault committed upon a white woman in the city.

Mrs. Edward M. Keenan, who resides on the outskirts of the city, was confronted at an early hour at night by a negro. He seized her baby and threw it upon the floor. When her husband arrived, some time later, he found his wife unconscious, and she has not recovered sufficiently at a late hour to tell what occurred.

The chase of the negro was at once organized.

Greek Premier Assassinated.

Athens, June 15.—Theodore P. Deliyannis, the popular premier of Greece, was stabbed and mortally wounded by a professional gambler named Gherakaris, at the main entrance of the chamber of deputies. The premier died within three hours. The assassin who was immediately arrested, said he committed the deed in revenge for the stringent measures taken by Premier Deliyannis against the gambling houses, all of which recently were closed. The premier arrived at the entrance of the chamber in a carriage. Gherakaris approached, saluted the premier and opened the carriage door. The premier was in the act of thanking Gherakaris for his courtesy when the gambler produced a long dagger into M. Deliyannis' abdomen, inflicting a frightful wound.

CURIOUS WAGERS.

Break Beta Won and Lost by the Conservative Briton.

In the year 1787 a farmer laid a wager that he would eat two dozen penny mutton pies and drink a gallon of ale in half an hour, a feat which he easily performed well within the specified limit. In about half an hour afterward he devoured a threepenny loaf and a pound of cheese and then attacked a leg of pork. A few years later, when the prince regent was enlivening Brighton with his vagaries, the notorious Sir John Lade made his celebrated wager that he would carry Lord Cholmondeley on his back twice around the Steine. As Sir John was short and his opponent tall, much curiosity was aroused, and many spectators, including ladies, came out to see, but were all balked of the spectacle by the knight declining to bear the nobleman except in the minimum of clothing, declaring that there was nothing in the conditions calling upon him to carry extra weight. Of quite another kind, says the Queen, was the wagering by a gentleman that he would stand all day upon London bridge with a trayful of new sovereigns, but he was unable to sell them at a penny a piece, and, like Sir John Lade, he won his wager. Fancy dress balls are still a favorite amusement with people, and many quaint and curious designs are to be seen at such assemblies, but here again there is nothing new, for, to quote but one instance, in 1808 a curious wager was laid between two gentlemen as to who should assume the most singular character. The winner paraded with his coat and waistcoat decorated with bank notes of different values, a row of five guinea notes and a netted purse of gold adorned his hat, while on his hat appeared a piece of paper with the words "John Bull." The loser would certainly appear to have been more original still, for he appeared dressed like a woman on one side, one half of his face being painted and the other half blackened to resemble that of a negro. On one leg he wore a silk stocking and a slipper and on the other half a pair of linen breeches, a boot and spur, while he was also adorned with half a long tailed linen coat.—London Standard.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of anyone using Foley's Honey and Tar and not being satisfied. J. W. McCollum & Co.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root, and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

THE RACCOON.

In the spring he starves. He hibernates in winter. During the summer and fall he feasts.

His coat is much sought for various purposes.

In captivity he is most engaging and appealing.

The courageous raccoon is game only in the autumn.

He can always whip a dog of his own size and weight.

Though called carnivorous, he has a weakness for peanuts.

Though the size of a very large cat, he is allied to the bear.

In eating corn he bends it down, tearing open the husks as does the hog.

Their treacherous tendency may be observed in the zoo's famous honey locust.

He comes from the woods to rob the cornfield, destroying much more than he eats.—Philadelphia Record.

Painfully Proud.

An English paper tells the following pathetic story of a governess who had seen better days, but who became altogether reduced in circumstances—nay, she kept hunger with difficulty from her door. Some benevolent person, hearing of her sad plight and knowing her pride, forwarded her half a sovereign, withholding any name. After the death of the poor lady, not so very long afterward, when her desk was searched by a friend, there was found a neat little white paper packet containing the half sovereign untouched. Across the paper was written in a tremulous hand: "Ten shillings sent anonymously. Most indecent."

The first half bottle relieved me and four bottles have cured me of this terrible disease. \$120,000 in Securities Stolen.

Boston, June 14.—A robbery involving the loss of \$120,000 in securities by Henry M. Comstock, of Boston, which occurred on board the steamer Puritan during her trip from New York to Fall River last night, was reported to the police authorities of this city today. The securities, which included 22 certificates of stock of various railroads and of the United States Steel corporation were taken from under a pillow in Mr. Comstock's state room by some one, who, it is believed, had climbed through a window. Shortly after Mr. Comstock had reached this city he received a telephone message from New York telling that he could regain the lost property by paying a suitable amount of cash.

Philadelphia Officials Lose Jobs.

Philadelphia, June 14.—The principal developments in the local political situation was the resignation of Samuel Salter, as assistant to the chief clerk in the office of the county commissioners and the issuing of an order for the dismissal on Wednesday of 65 employes in the bureau of city property and 14 in the electrical bureau. Probably the most interesting development was the resignation of Salter, who some years ago, after being a fugitive from justice for about a year, returned to this city and was acquitted of the charge of stuffing a ballot box. In his resignation, which came as a surprise to the citizens of the city, Salter stated that he intended to go into business.

No Secret About It.

It is no secret that for cuts, burns, ulcers, fever sores, sore eyes, boils, etc., nothing is so effective as Doan's Ointment. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Tex. 35c at all drug stores.

Southern Adopts Block System.

Atlanta, June 14.—All arrangements have now been completed for the establishment of a complete and continuous block signal system of the very latest type on the Southern railway's main line from Atlanta to Washington, D. C., the operation of these signals to go into effect one minute after noon next Sunday, June 18. For a long time the Southern railway has been hard at work constructing this complete service of block signals for the main line and in the Atlanta railroad world this new departure has generally been acknowledged to be the most important chapter in southern transportation for a very long time. These block signal houses are located every ten miles, while every freight yard or crossing is also equipped with the establishment of special block-houses.

Mount Pelee Again Active.

Fort de France, Island of Martinique June 14.—For the past few days Mount Pelee has manifested activity, and while stronger than that of the month of April of the present year, does not seem to be of an alarming nature. Some dense clouds of smoke have been discharged from the volcano, and have slowly fallen over the White river valley, after disappearing at the seacoast.

Dying of Famine

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and \$1 a bottle. Trial bottle free.

CUT

BARK INTO STOPPERS.

The Knives That Shape, Have and Taper the Slabs From the Tree—The Way Waste Product Is Utilized.

Cork, as most persons know, is the outer bark of an evergreen oak tree which grows in Spain, Portugal, Algeria, Morocco and to some extent in Italy. Its peculiar properties, especially its lightness and its compressibility, make it valuable for scores of purposes, but its original use, in the manufacture of corks, or stoppers for bottles, still consumes the greater part of all that is brought to market.

The cork oak varies in diameter from six inches to three feet. By a generous provision of nature the tree may be periodically stripped of its outer bark without losing its life.

Twenty years is the usual age at which the first cutting is made. After that the cork may be harvested about every ten years. The first cut, which is called virgin bark, is of little value, as it is coarse in texture and deeply seamed. The tree may be expected to live and yield cork until it is 150 years old.

In Spain and some other European countries corks are still made by hand, each one being pared from a square block by a common knife. In this country, where are made the finest corks in the world, the work is done by machinery, all of which is of American invention and manufacture. Every boy who has ever whittled a cork for a fishing bob or a popgun pellet knows how difficult the material is to cut smoothly. To do it well his knife must be as sharp as a razor and must be used with a drawing motion, not a mere pressure, and if the cork be wet so much the better. The same difficulties confront the manufacturer by machinery and are met in the same way.

The bark, after having been wet and then allowed to remain for a time in damp cellars to soften, goes first to the stripping machines, which reduce it to slabs of a size proportionate to the corks to be made. These machines are merely small iron tables, through which appear very thin steel disks, like circular saws, except that they have no teeth. They are really keen edged steel knives, as thin as paper and running at a high rate of speed, but so smoothly that they seem to the spectator to be standing still.

The little slabs or strips of cork go next to the "blockers." The cutters here are cylindrical steel punches, or tubes, with razor edges. They are arranged in rows, or "gangs," and instead of being simply pressed through the cork are also revolving at high speed and so cut their way through. Having perforated the slab, the cutters back away automatically, while plungers like pistons working in the cylinders come forward and punch out the cores, which for some purposes are already finished corks.

They are, of course, perfectly cylindrical—that is, without taper—and in that form they are preferred by bottlers of effervescent liquids, because their shape enables them the better to resist the pressure of the restrained gases.

But for the use of druggists, who are the great users of corks and need the very finest, a tapering stopper is preferred, and this necessitates another operation. The tapering machines are run mostly by young women. Each machine consists of a little lathe, which centers the cylindrical cork automatically and then brings it into contact with the edge of the cutting knife, which, like the cutter of the slicing machine, is a very thin steel disk. As the cork touches this knife a thin shaving rises and curls away, like as a puff of smoke.

One who knows nothing of the machinery could see no reason for it, but during the second that the cork has been in contact with the apparently motionless disk some dozen yards of flying, razor edged steel have been at work, and the cork is now a perfect truncated cone, with a fine satin-like surface and an even and regular taper. By hand a very rapid and skillful cutter can turn out twelve or fourteen gross in a day. With these machines one girl will produce 420 gross.

There are few businesses in which the quantity of waste material is so large as in the manufacture of corks. In the best managed factories it ranges from 60 to 70 per cent, but American ingenuity and industrial development have succeeded in transforming it into a source of profit. By grinding the waste to various degrees of fineness and pressing it with glue or shellac into various shapes it is made useful for the inner soles of shoes, for bathroom mats, for insulation in refrigerating plants and the deadening of sound in apartment houses, the making of bicycle handles and the grips of tennis rackets, fly rods and golf clubs, and there are dozens of other uses for the waste which are quite as interesting.

Some years ago one manufacturer of corks was paying a teamster a dollar a load to cart away his waste and dump it on a refuse heap. Today he

receives \$60 a ton for the very cheapest quality of this waste.—Edward Williston Frenz in Youth's Companion.

A PRIMITIVE SPOT.

Virginia's Peculiar and Isolated Island of Tangier.

In Chesapeake bay, 125 miles south of Baltimore, with which city communication by boat three times a week may be depended upon during the summer season, is the strange island of Tangier, so completely isolated from the usual lines of travel that it hardly seems possible that it can be a part of the state of Virginia. * * * Imagine, if you can, an island about five miles long and three-fourths of a mile in width, with a population of nearly 1,500, where each house is connected with Chesapeake bay by a tiny canal; an island where the population has built homes along one narrow street but nine feet in width, without sidewalks, roadbed or gutter; an island where the women go about with bare feet and calico gowns during the week and where the men leave for their work at an early hour on Monday morning and remain away until Saturday afternoon; an island where intoxicating liquors are not sold, where billiard rooms and pool rooms are unknown; an island where one physician and the minister constitute the professional class; an island where profanity is punished by fine; an island without a jail or lockup and where religion is the rule and to be outside of the church is to be outside of the pale of the best society; an island where public cemeteries are unknown and where the dead of each home are buried in the front yard. If you can imagine all this, you may have some faint idea of the peculiar surroundings of the inhabitants of Tangier.—Four Track News.

ARROW CANYON.

Odd Way in Which Its Walls Were Decorated by Indians.

Thousands of arrows shot by bands of Indians for possibly centuries protrude from a mass several hundred feet long in the rocky walls of Arrow canyon, about twenty miles from the crossing of the Salt Lake railroad over the Mopau river, says the Los Angeles Times.

At a point where the perpendicular wall of the canyon juts out about 200 feet above the canyon bed a thin, snake-like fissure runs in the rock. Successive generations of Indians have gone to the place at regular intervals and shot their gayly befeathered arrows upward, forming a fringed scarf unique in its oddity. The arrows are so thick that little room is left for more, and owing to the position of the fissure at a height of 200 feet and under the shelving wall the relics, protected from the weather, have stuck where they were driven in uncounted years ago.

Already relic hunters are visiting the place and despoiling it of its treasures by shooting the arrows out with revolvers and rifles. In the sands of the bed of the canyon many arrowheads of various sizes and shapes are found buried. It is believed that the Indians visited this spot in connection with some rite. Crude, strange figures have been cut by them in the face of the rock walls.

Worshippers of Wak.

The Borans are a strange people inhabiting the frontier between British East Africa and Abyssinia. The tribe are polygamists when they can afford it, and by religion they worship the spirit Wak, which requires constant propitiation. This is done by sacrificing their children and cattle. A Boran of any standing when he marries becomes a "raba," and for a certain period after marriage, varying from four to eight years, he is obliged to "throw away" any children that are born to him to appease Wak. After this period he becomes a "gudda" and keeps his children.—London Express.

Careful of Himself.

"When I was your age," said the glided youth's father, "I was at work before 7 o'clock every morning."

"Yes," answered the young man; "if I had all the business cares you used to have maybe I'd get insomnia too."

Subscribers have been repeatedly notified not to pay the carriers unless they have printed receipts, but some parties continue to pay no attention to this notice. Hereafter no credit will be allowed subscribers who pay carriers without the required receipt. We would rather you would not take the paper unless you can pay the proper person for it.

Mr. Arnow Promoted.

Friends of G. Maurice Arnow, well known in this city, will be pleased to learn of his promotion in the railway mail service.

Mr. Arnow has been in the service a comparatively short while, but his superiors were quick to recognize his ability and the interest he manifested in his duties, with the result that he has been substantially rewarded.

Mr. Arnow has been running as postal clerk between Ocala and Homosassa, but a letter from Chief Clerk Beaver to Postmaster Arnow under date of the 14th instant bears information that he has been promoted to the fourth class at an increased salary and transferred to the run between Jacksonville and Port Tampa.

PHIFER BROS.,
Phifers' Corner, Gainesville, Florida.

W. L. Hill and family have removed from their former home, 208 E. Columbia street, to the home at 208 E. Church street, recently purchased by Mr. Hill from W. R. Thomas. Captain and Mrs. C. R. Layton are now occupying the home vacated by Mr. and Mrs. Hill, having removed from the Hampton house, 507 N. Factory street.

Miss Nellie Goss departed yesterday for Chicago, where she purposes to remain indefinitely with her brother, Jesse Goss. Miss Goss will complete her education in that city. While friends regret very much to give her up here, they nevertheless wish her much success and happiness in the home of her adoption. She was accompanied as far as Jacksonville by her brother, John Goss.

While Frank Scott, an employee of the Kelley mill at the waterworks, was operating a small circular saw yesterday he got his right hand mixed up with the "business end" with the result that he is minus nearly a half inch of his thumb and two other fingers are slightly lacerated. His condition is not considered serious, however, and no ill effects will result save the loss of a portion of the thumb.

The remains of Mrs. Margaret Godwin, the sad death of whom occurred at the home of her son, W. L. Godwin, Fairfield, passed through this city yesterday en route to the old home, Cerro Gordo, N. C., where the interment will be held. They were accompanied by the son of the deceased, E. B. Godwin. Another sad feature of this death is the fact that another son, J. J. Godwin, is very ill at his home in Micanopy.

O. W. Maines of Monteccha and son, Dr. J. E. Maines of Waldo, were in the city yesterday and made The Sun an agreeable call, the latter having his name enrolled upon the subscription list. The former has been for several years one of The Sun's oldest and best friends in the Monteccha section. Dr. Maines graduated last term from the College of Physicians and Surgeons, Atlanta. He is a promising young man and will no doubt establish a good practice at Waldo.

W. G. English of Tacoma was in the city yesterday. He was accompanied by his uncle, James Brown of Acord, Ga., who has been for the past few days a guest of D. T. English and family at Tacoma. It was the first time he had had the pleasure of seeing them for twenty-three years. Mr. Brown is well pleased with Florida, especially this section, which he believes to be the most fertile section in the State. He was en route to his Georgia home and left on the noon train.

A. E. Wittstock, who is superintending the mechanical department of the new ice plant at Alachua, states that the new plant, which began operations two or three days ago, pulled the first ice yesterday morning. The plant, which is a modern one of twelve tons capacity, ran smoothly from the beginning, and Mr. Wittstock, who installed the machinery, anticipates no trouble. Frank Shawl, formerly of this city, will be permanent superintendent, as Mr. Wittstock expects to leave as soon as everything is definitely settled down to good working order.

The free library contest is waxing warm. The rivalry between the contestants increases daily and the business men who were loath to go into the scheme now see that they made a good investment. The Sun office is a regular polling place, and all persons who pay for not less than three months to the daily edition, or who have job printing done, are entitled to votes as follows: 75 votes for three months' subscription, 200 for six months and 500 for one year, or one vote for each ten cents spent with us for job printing. It will thus be observed that The Sun permits the casting of more votes for the money than any other concern. We have no favorites to play, and all that is necessary for you to vote for your favorite is to pay for the paper the required length of time. The collector will take pleasure in giving you a blank ballot to fill out, provided you pay not less than \$1.25. The more you pay the larger the proportionate number of votes you are entitled to.

Business is Heavy.

From all appearances, it seems that Manager Buell of the Western Union Telegraph Company's office here is making a paying proposition. It has become necessary, on account of increased service, to employ another messenger, and the position has been accepted by Will Bartley. Manager Buell is not only a competent manager, but is making himself quite popular with the patrons of this office by his courteous and obliging manner.

H. O. Turner of Bainbridge, Ga., has accepted a position as operator in the office.
